About

Michelle Webb
Doctor of Physical Therapy

Hi! I'm Michelle Webb, Doctor of Physical Therapy at Webb Physical Therapy. Since graduating from PT school in 2011, I have worked in many different areas of physical therapy, but it wasn't until I started working with

Pelvic Floor Physical Therapy that I found my

true passion...

Michelle was the first physical therapist that actually listened...

As someone with decade-long chronic illnesses, my needs had not been addressed by other physical therapists. Michelle was the first physical therapist that actually listened and trusted me to know my body and took my unique needs into consideration when making recommendations. As a result, not only have we been able to successfully address the nerve pain I was seeing her for initially, but we've continued to work together to address, and hopefully even prevent, other issues that run in my family.

Michelle is kind, patient, knowledgeable, and very quick to respond to questions in between appointments. She is amazing!
