

## OUR VISION

Manhattan Soup Kitchen's goal is simple, to feed people not landfills.

Our mission is to promote the sustainability of food and other natural resources to enrich the lives of people in our community. We want to interrupt the cycle of waste by recycling existing resources, that may otherwise be put to waste as provisions to feed the hungry, educate the uninformed, and improve sustainability in our community.

There are no hoops to jump through, no paperwork to complete, just support, full bellies, and increased sustainability.
